Kill and Prevent Moss, Algae, Lichen, Mould, Black Spot on Hard Surfaces

Baticlean CR - kills moss and algae systemically for long lasting effect and covers a large area. Can be used on delicate interior and exterior surfaces.

This concentrate (30m² coverage per litre diluted) kills and inhibits the growth of moss, algae and mould. Non-staining and safe on all surfaces such as wood, thatch, paint, artificial grass and interior walls. No rinsing required.

Batiface and Batifort - act rapidly on contact

Acting on contact, our rapid killers are strong enough to effectively kill heavy and difficult growth as well as black spot and lichen. Can be used on hard surfaces such as patios, paths, driveways and roofs. Apply by spray (up to 12m² per litre) and rinse, preferably by pressure washer, for a stain-free finish.

Hydrosil - water repellent sealer for durable protection

Sealing water from the treated surface, this water repellent will ensure that growth is inhibited for longer, protects surfaces and prevents environmental damage and salt blooming.

Prodeck - clear moss, algae and greening from timber and decking

For clearing growth and greening from wood decking and the health hazard of slipping, each litre covers up to 40m².

SP Claire - renovate timber and decking to new

Brightens and cleans timber and decking to bring it back to its natural state.

Specialist Areas

As manufacturers and suppliers of specialist solutions, we have a full range of options for most problems. Please contact us for further information.

SP Strip - oil and stains from bricks and concrete

Removes oil stains, dirt, staining and salt blooming from brickwork and concrete, ideal for driveways and forecourts.

A Clean - disinfectant and general cleaner of greening

Ideal on many surfaces, each litre covers 250m².

Weed Killers and Lawn Treatment

Clinic Up - strong and treats leaf to root

A fast acting glyphosate herbicide for the systemic control of annual and perennial grasses and weeds that can be used pre-sowing of crops as well as on all hard surfaces. 5 litres covers a hectare or 10,000m² diluted.

Katana - prevents re-growth of weeds for up to 9 months

Non-selective herbicide granules can be added to glyphosate weedkillers for simultaneous spraying. As well as killing weeds, it will also prevent re-growth so should be used on areas not intended for vegetation. Ideal around playing areas and kerb sides. 50 grams covers 3,500m² diluted.

Renovator Pro - Feed, weed and kill moss in lawns

Triple action granules tackle difficult situations. 25kg covers over 700m².

Pest Control

We offer a variety of pest control solutions such as powder for insects, wasps and flies, plum tree, chafer beetle and wasp traps.

Vitax - Triple blend herbicide in a ready-to-use spray.

Kill the weeds that others leave behind without damaging the lawn in a spot treatment spray.

“The One The Professionals Use”

Spraying and Safety Equipment

We offer a full range of application equipment such as sprayers, extensions, nozzles, brushes, spares and safety clothing.

Compression Sprayers

A range of equipment for spraying all types of solution ranging between 1 and 8 litre capacity, so ideal for use on smaller areas or where weight or cost is an issue.

Knapsack Sprayers

Ideal for professionals or amateurs with the ability to be worn on the back so leaving both hands free during use, our range varies from 12 to 20 litre capacity with different degrees of quality fittings depending on intended use.

Electric Sprayers

We offer both small and large capacity rechargeable sprayers that can be used without any manual action and come with a recharger.

Extensions and Nozzles

Various telescopic extension lances (1 to 5.4m) and multiple nozzles to fit on our sprayers ensure that you can reach the most difficult of areas.

Safety Clothing

We also offer safety clothing such as goggles, gloves and breathing masks to ensure that your workforce is completely protected in the harshest of environments
